

What I already know

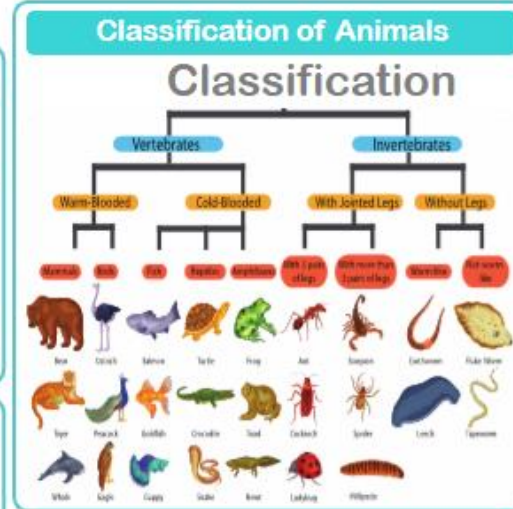

- I know about different animal families
- I have begun to know how to classify animals
- I know how to identify if something is living, never lived or was once living

Sticky Learning

Fungi
Fungi gain energy from dead matter.

MRS GREN

- M** Movement
- R** Respiration
- S** Sensitivity
- G** Growth
- R** Reproduce
- E** Excretion
- N** Nutrition

Carl Linnaeus

Carl Linnaeus created a system of classification, which ranks living things into groups in order to name their species.

DOMAIN	Eukarya
KINGDOM	Animalia
PHYLUM	Chordata
CLASS	Mammalia
ORDER	Primates
FAMILY	Hominidae
GENUS	Homo
SPECIES	Homo sapiens

Microorganisms

Antibiotics, yoghurt, cheese, wine and yeast are all **helpful bacteria.**

Mould, food poisoning and athletes foot are **harmful bacteria.**

Core Learning

1. Classify living things
2. Understand the Kingdoms of Life
3. Classify living things using the Linnaean system
4. Identify the characteristics of different types of microorganisms
5. Investigate asexual reproduction through spore dispersal
6. Classify and describe a living organism

Complete the words which fit in the acronym MRS GREEN.

M
R
S

G
R
E
N

Tick the pictures depicting helpful bacteria.

Draw lines to match the living organisms to classify them into Kingdoms.

Animal

Plant

Fungi

Protista

Bacteria

Ancient Bacteria

Andy says, "A tree is not alive because it cannot breathe or move on its own."
Is Andy correct? Explain your thoughts.

Science (Rocket) Words

Rocket Words

	classification	The arrangement of animals and plants in groups according to their observed similarities.
	microorganism	A tiny, microscopic organism such as bacteria, virus or fungus.
	habitat	A place where living organisms live.
	living organism	Something that can move, use energy and reproduce.
	species	The smallest class of organisms.
	microscopic	A microscopic organism, too small to see with the naked eye.
	ecosystem	A group of living organisms that live and interact with each other in a specific environment.
	kingdom	A category grouping together all forms of life, having certain characteristics in common.
	Linnaean System	A diverse kingdom which include mushrooms and brewer's yeasts.
	cell	The smallest structural and functional unit of an organism.
