

Creating media - Video production

The Acorn Partnership

Marston Montgomery Primary School
Long Lane C of E Primary School

Sticky learning

- Know how to save work on a computer, so that I can continue to work on it at a later date.
- Know how to add media such as sounds and writing in scratch.
- I know I need to plan (stop frame animation) before I create.
- I know how to edit.
- I know how to edit recordings by trimming and adding others sounds.

1. Close up

2. Mid range

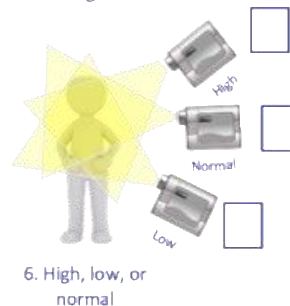

3. Long shot

4. Moving subject

5. Side by side

6. High, low, or normal

New Knowledge

- I know that there are different techniques used for filming videos such as panning and close ups that make it more effective.
- I know there are different camera angles and can use these and a microphone to record a video.
- I know zoom, pan and tilt are different technique to capture videos and can use these and review them on how effective they are.
- I know storyboards are used to plan videos and I can create one and start capturing my video following my storyboard.
- I know reshoots are needed to improve videos and can add reshoots to my video and edit it.

Key Vocabulary

| | |
|-------------------|---|
| Video | visual media format |
| Panning | Slowly moving the camera from side to side to show more of a scene. |
| Close-up | A shot that shows something very close, like a person's face or a small object, to show details. |
| Mid-range | A shot that shows a person or object from about the waist up, so you can see both details and background. |
| Long shot | A shot that shows the whole person or object and a lot of the background to set the scene. |
| Subject | The main person or thing that the video or picture is focused on. |
| Zoom | Making something look closer or farther away without moving the camera. |
| Pan | Moving the camera from left to right or right to left to show more of a scene. |
| Tilt | Moving the camera up or down to show something above or below. |
| Storyboard | A set of pictures or drawings that show what will happen in a video, like a comic strip for movies. |
| Split | Cutting a video into two parts to edit it. |
| Trim | Cutting off the beginning or end of a video to make it shorter. |
| Reshoot | Recording a video again to make it better. |
