# Data and information- Grouping data

Autumn 1 2025

## Sticky learning

### New Knowledge

- I know how to label and describe objects and then put them into groups.
- I know how to count and group objects.
- I know how to describe object in different ways based on different properties (color, shape and size)
- I know how to. Make groups based on similarities and differences and put them into more than one group.
- I know how to answer questions based on different groups of objects and decide how to group objects.

Key Vocabulary	
Object	A thing you can see or touch.
Label	A name or word that tells you what something is.
Group	A set of things that are put together because they are the same in some way.
Image	A picture of something.
Property	Something special about an object, like its color or size.
Colour	What we see, like red, blue, or yellow.
Size	How big or small something is.
Shape	The form of something, like a circle, square, or triangle.
Value	The amount or meaning of something, like a number or a color name.
Data set	A collection of information or facts.
Most	The biggest number in a group.
Least	The smallest number in a group.
Fewest	The smallest amount or number of things.
