Creating Media- Digital Photography

Summer 1 2025
1&2

Sticky learning

- I know how to save work on a device.
- I know how to use a keyboard to type.
- I know how to create media using painting software
- I can edit on a digital device.

New Knowledge

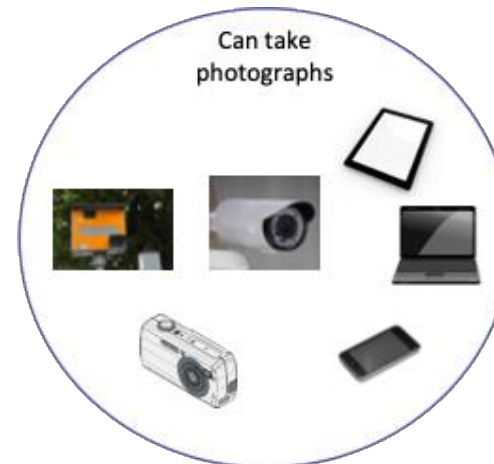

- I know what digital devices take photographs and can explain how I captured a photo on one.
- I know what landscape and portrait photographs are and explain if a photo looks better in each format.
- I know what makes a good photograph and how to retake photos to improve them.
- I know lighting can affect photographs and can cause them to be unclear.
- I know photos can be edited by adding filters and using tools.

Upright = portrait

Sideways = landscape

Key Vocabulary

Photography	An image that has been captured by a camera.
Camera	A tool or device that takes pictures or videos.
Landscape	A photo of nature, like mountains, trees, or a sunset.
Portrait	A photo of a person or group of people, usually showing their face.
Framing	How you choose what to include in a photo, like putting a tree or a person in just the right spot.
Subject	The main thing or person you are taking a picture of.
Compose	Deciding where everything goes in a photo to make it look nice.
Light sources	Anything that gives light, like the sun, lamps, or candles, to help you take pictures.
Flash	A quick, bright light from the camera to help take pictures in the dark.
Editing	Changing a photo to make it look better, like making it brighter or adding colours.
Filter	A special effect you can add to a photo to change how it looks, like making it black and white or extra colourful.
