

Sticky Learning

- I have explored the natural world around me, making observations and drawing pictures of animals and plants;
- I know some similarities and differences between the natural world around me and contrasting environments, drawing on my own experiences and what has been read in class;
- I understand some important processes and changes in the natural world around me, including the seasons and changing states of matter.

Core Learning

bird

- young born in eggs
- feathers
- warm-blooded

fish

- scales
- gills
- live in water
- cold-blooded

reptile

- young born in eggs
- cold-blooded

amphibian

- young born in eggs
- cold-blooded
- lives in water and on land

mammal

- young born live
- warm-blooded
- fur

What animals eat

herbivore

omnivore

carnivore

Carnivores	Herbivores	Omnivores
 Tiger	 Rhinoceros	 Hedgehog
 Cuttlefish	 Deer	 Boar
 Platypus	 Parrot	 Skunk
 Anteater	 Koala	 Monkey
 Shark	 Lion	 Kiwi
	 Hippopotamus	 Bear
	 Giraffe	

Core Learning

-  1. Discover animal families
-  2. Learn about the differences between mammals and birds
-  3. Learn about the differences between amphibians, reptiles and fish
-  4. Discover the type of food living things eat
-  5. Explore the difference between wild animals and pets
-  6. Explain the characteristics of an animal

Rocket Words

fish	an animal that lives in water and has fins for swimming and gills for breathing
amphibian	a cold-blooded animal that spends some time on land and in water
reptile	a cold-blooded animal that usually has the skin covered with scales or bony plates
mammal	a warm-blooded animal with a skeleton inside its body that grows hair or fur on this skin; mammal mothers produce milk to feed their babies
bird	an animal with a backbone that has feathers, wings and a beak
warm-blooded	having a warm body temperature that does not change with the temperature of the air
cold-blooded	having a body temperature that changes depending on the temperature of the air or water
herbivore	an animal that only eats plants

Draw a line between the group of characteristics and the correct animal

bird

- scales
- gills
- live in water
- cold-blooded

fish

- young born in eggs
- cold-blooded

reptile

- young born in eggs
- cold-blooded
- lives in water and on land

amphibian

- young born live
- warm-blooded
- fur

mammal

- young born in eggs
- feathers
- warm-blooded

Circle the animals which are cold-blooded.

Draw a line between the animal and the family it belongs to.

Mammals

Birds

Fish

Reptiles

Amphibians

Draw a line between the animal group name and what they eat.

Carnivores

Herbivores

Omnivores
